Senior technical writer with 10+ years of experience documenting complex software products, from end-user guides to API and SDK documentation. Builds documentation systems that scale with the product and delivers content ready for launch. Works across teams to improve documentation quality and operations, combining AI tools with human review.

WORK EXPERIENCE

Senior Technical Writer **Apr 2025 - Present**
Phantom Technologies Inc. **Ho Chi Minh City (Remote)**

At Phantom, I'm part of the Customer Happiness team, where I focus on making sure users always have clear, accurate, and helpful information.

Achievements:

- Planned and coordinated a Help Center redesign to align it with Phantom's brand identity.
- Restructured and standardized all Help Center articles for consistency and clarity, ensuring the same reliable answers appear both online and in chatbot responses.
- Revamped Help Center's information architecture by use cases.
- Built a process for day-one documentation releases for major product launches like Phantom Cash, Phantom Prediction Markets, Phantom Perps, Phantom Terminal, Phantom Chats, liquid staking with PSOL, and others, with proactive updates as features evolve.
- Revived the internal style guide, expanding it beyond Help Center docs to UI writing and cross-team collaboration.
- Contributed to reviews for major features, making sure in-app wording is intuitive and user-friendly.
- Co-maintained the Customer Happiness chatbot to keep responses aligned with current product knowledge, maintaining containment rate at 90%.
- Recognized for cross-functional work, and for closing product loops by bringing user feedback to product and engineering teams.

Senior Technical Writer **Feb 2023 - Nov 2024**
Sky Mavis **Ho Chi Minh City, Vietnam**

Self-onboarded into the blockchain domain through extensive research and laid the foundation for developer documentation. Enabled engineer contributions and scaled documentation processes to support Sky Mavis's products.

Achievements:

- Documentation impact:
  - Launched a developer documentation site that achieved over 15,000 monthly views, an end-user documentation site for a blockchain that achieved a monthly user base of over 8,000.
  - Created comprehensive documentation for over 10 products, APIs, and SDKs using docs-as-code.
- Scalable documentation processes:
  - Automated workflows and educated engineers, enabling them to independently document 2 critical APs.
  - Ensured clear, standardized information architecture using the Diataxis framework.
- Cross-functional contributions:
  - Reviewed and updated UI microcopy for the Ronin web app in collaboration with UX designers.
  - Applied the Business Model Canvas to identify ways developer documentation could reduce integration timelines
- Client engagement:
  - Worked directly with game studios as an integration manager, improving documentation, reducing integration timelines, and driving client satisfaction.

Senior Technical Writer **Apr 2021 - Jan 2023**
Ninja Van **Ho Chi Minh City, Vietnam**

Led the documentation function, overseeing documentation contributions from over 200 people, including engineers, product managers, and QA testers. Developed API documentation for external partners. Maintained an internal wiki and enforced adherence to guidelines and established processes.

Achievements:

- Rewrote and expanded the company's API documentation site, resulting in a 20% decrease in support requests and documentation-related complaints.
- Developed a style guide and implemented documentation-related guidelines and processes, achieving a 20% increase in users' perception of the documentation quality and maturity based on quarterly surveys.
- Reduced onboarding time for QA engineers from 2 weeks to 2 days by creating comprehensive tutorials.
- Improved documentation maturity level from 2 to 3 based on a maturity model developed similar to the one used by Wikipedia.
- Improved documentation coverage for micro services from 40% to 80% throughout the year on an internal scale.
- Implemented a working model with "wiki wardens" to appoint representatives of each engineering team responsible for maintaining documentation and implementing best practices, resulting in a 10% increase in documentation accuracy.

Senior Technical Writer **Sep 2018 - Apr 2021**
Lazada Group **Ho Chi Minh**

Joined a logistics technology branch of Lazada Group. Created documentation for the engineering teams working in the logistics domain, as

well as the cybersecurity team.

Achievements:

- Developed a centralized architecture diagram for the entire ecosystem, establishing the single source of truth on the system connectivity.
- Developed the first company-wide glossary of terms and implemented a chat bot for easy retrieval of definitions, achieving a 30% increase in efficiency for employees.
- Standardized API specifications for over 30 services and established API documentation standards as a result.
- Executed migration of content from Confluence to Yuque, making documentation accessible to all stakeholders instead of limiting to those with Atlassian accounts.
- Created onboarding documentation for new employees and developer guidelines to streamline the onboarding process and improve efficiency.

Senior Technical Writer **Jan 2017 - Sep 2018**
Lazada Group **Singapore**

Created documentation for information security and access management domains resulting in an increase in team efficiency. Provided content for company-wide projects led by the cybersecurity team, contributing to successful project completion.

Achievements:

- Developed user documentation resulting in an increase in user adoption for the launch of BlackBerry UEM mobility management platform.
- Designed a SharePoint site and created a knowledge base and an FAQ for a large project on migrating content Google Docs to Office365.
- Developed a comprehensive documentation set to facilitate the onboarding of over 1,000 Lazada employees to a new corporate messenger platform.
- Created a developer documentation set for an invoice management system, including 10 data flow diagrams, 5 sequence diagrams, and 3 context diagrams.

Technical Writer **Jul 2015 - Jan 2017**
Lazada Group **Ho Chi Minh City**

With no supervision, established a technical writing workflow and documented critical processes and areas of the e-commerce software development.

Achievements:

- Developed and updated administrator documentation for a backend engine and order management systems.
- Created a first-of-its-kind system architecture diagram through a series of meetings with developers and tech leads from multiple countries.
- Held presentations on the role of technical writing and documentation in software development, highlighting an increase in project efficiency after implementation.
- Developed onboarding documentation for new employees, establishing a streamlined process and reducing training time from 2 weeks to 3 days.

Technical Writer **Sep 2014 - Aug 2015**
Lintelus Inc. **Orange County, California, USA (Remote)**

Created comprehensive DOC/PDF documentation for an event management platform tailored to various user categories, achieving a 100% on-time release rate across multiple time zones.

Technical Writer **Sep 2013 - Sep 2014**
SwitchRay Inc. **Nizhny Novgorod, Russia**

Developed end-user documentation for a telecom fraud detection and prevention system, including user guides, release notes, and marketing content.

Technical Writer **Nov 2012 - Aug 2013**
MFI Soft **Nizhny Novgorod, Russia**

Achievements:

- Created bilingual (English and Russian) documentation for major releases of a VoIP soft-switch, with each release including 10+ articles on installation, configuration, and maintenance of the switch.
- Used the Help&Manual software to implement conditional formatting for preparing PDF/DOC outputs for major releases of the soft-switch.

Translator **Jan 2011 - Jan 2012**
Hotel Translation **Nizhny Novgorod, Russia**

Delivered 10+ translation projects from English to Russian for a major hotel chain based in Dubai, improving the existing machine translation and writing Russian translations from scratch.

CERTIFICATIONS

Prompt Engineering for ChatGPT (Credential ID: HU01LBWUWN7G) by **Coursera** **Dec 2024**
Certificate of Completion of the Back-End Python Developer Professional Training Course (Credential ID: 20212BE00164) by **Yandex School of Data Analysis** **Apr 2021**
Snagit Certification (Credential ID: j5tzccby8bnp) by **TechSmith** **Apr 2020**

LANGUAGES

English • Russian • Vietnamese

SKILLS

Tools and technologies: Zendesk Knowledge, Mintlify, Codex, Claude, ChatGPT, git, Docusaurus, Markdown, HTML, git, command line, docs-as-code, Visual Studio Code, Vale, SnagIt, Draw.io, plantUML, mermaid, C4 model, prompt engineering, Figma

Soft skills: Customer communication, empathy, conflict resolution, project management, collaboration, critical thinking, attention to detail

EDUCATION

Bachelor of Linguistics **Jan 2009 - Jan 2012**

Linguistics University of Nizhny Novgorod (LUNN)

Specialized in the theory and methods of teaching foreign languages (English).

PROJECTS

Breakpoint 2025 **Dec 2025 - Dec 2025**

I represented Phantom at Solana Breakpoint 2025 in Abu Dhabi, UAE. Although I was invited primarily to meet coworkers, I volunteered alongside colleagues at the company's booth, answering users' questions and connecting developers and builders with the right teams. After the conference, I received an MVP shout-out at the company's all-hands meeting.
